TOPIC : KARTHIKAVANAM & SORROUNDINGS OF CHITTOOR FOREST

Brief Report:

Different methods of cuttings:

There are several different methods of propagating plants by cuttings.

Stem cuttings:

This involves taking a section of the stem from the parent plant and rooting it in soil or water. Stem cuttings can be taken from softwood, semi-hardwood, or hardwood stems, depending on the type of plant.

Leaf cuttings:

This involves taking a single leaf from the parent plant and rooting it in soil or water.

Leaf cuttings are commonly used for succulent plants.

Root cuttings:

This involves taking a section of the root from the parent plant and planting it in soil or water until it develops into a new plant.

Cane cuttings:

This involves taking a section of the cane or branch from the parent plant and rooting it in soil or water.

Rhizome cuttings:

Cane cuttings are commonly used for grapevines and some types of berries.

This involves taking a section of the rhizome from the parent plant and planting it in soil or water until it develops into a new plant.

Leaf-bud cuttings:

Rhizome cuttings are commonly used for plants such as iris and ginger.

This involves taking a section of the stem that includes a leaf and a bud, and rooting it in soil or water.

Leaf-bud cuttings are commonly used for plants such as roses and azaleas.

Pot cutting:

Root cuttings are a method of plant propagation that involves taking a section of plant's root and planting it in soil or water until it develops into a new plant.

This method is commonly used for plants with thick roots, such as raspberries, blackberries and some types of shrubs.

Programme outcomes:

Students can be able to understand the techniques of different cuttings following in plant propagation and procedures involved in the plant tissue culture in a better way.

Awareness on Permanent Lok Adalat BY Sri N. Ramesh Babu, Chairman

Permanent Lok Adalat, Chittoor

Brief Report:

NALSA along with other Legal Services Institutions conducts Lok Adalats. Lok Adalat is one of the alternative dispute redressal mechanisms, it is a forum where disputes/cases pending in the court of law or at pre-litigation stage are settled/ compromised amicably. Lok Adalats have been given statutory status under the Legal Services Authorities Act, 1987. Under the said Act, the award (decision) made by the Lok Adalats is deemed to be a decree of a civil court and is final and binding on all parties and no appeal against such an award lies before any court of law. If the parties are not satisfied with the award of the Lok Adalat though there is no provision for an appeal against such an award, but they are free to initiate litigation by approaching the court of appropriate jurisdiction by filing a case by following the required procedure, in exercise of their right to litigate.

There is no court fee payable when a matter is filed in a Lok Adalat. If a matter pending in the court of law is referred to the Lok Adalat and is settled subsequently, the court fee originally paid in the court on the complaints/petition is also refunded back to the parties. The persons deciding the cases in the Lok Adalats are called the Members of the Lok Adalats, they have the role of statutory conciliators only and do not have any judicial role; therefore, they can only persuade the parties to come to a conclusion for settling the dispute outside the court in the Lok Adalat and shall not pressurize or coerce any of the parties to compromise or settle cases or matters either directly or indirectly. The Lok Adalat shall not decide the matter so referred at its own instance, instead the same would be decided on the basis of the compromise or settlement between the parties. The members shall assist the parties in an independent and impartial manner in their attempt to reach amicable settlement of their dispute

Programme outcomes:

Nature of Cases to be Referred to Lok Adalat

1. Any case pending before any court.
2. Any dispute which has not been brought before any court and is likely to be filed before the court.

Provided that any matter relating to an offence not compoundable under the law shall not be settled in Lok Adalat

5. Brief Report: Department of Political Science Awareness Program on Voters “ Quiz program” conducted on 7-12-2023 for all groups participated in the college The voting awareness is an article that discusses voting and its importance. It provides information about voting and how to be a responsible voter. A lot of people want to vote, but many are not aware of its need and how to cast it. This is where voting awareness comes into play. The idea of voting awareness is to help people understand the importance of voting. Voting is an important way for voters to control their government. It is a method for citizens to express what they want from their leaders by raising awareness about voting. This will lead to better governance and what everyone wants - a democracy that is free, fair and representative.	
6. Programme outcomes: <ul style="list-style-type: none">• To create awareness among the youth and eligible voters to register and vote• To creating awareness among the people/public/voter regarding the importance of the three-tier local electoral system• To enhance people’s participation in the voting system• To create awareness to select effective people centric leaders• To ensure smooth implementation/execution of our planned activities	

CELEBRATION OF NOBEL PRIZE DAY-STATE LEVEL CROSSWORD PUZZLE COMPETITION 10-12-2023

As a part of observing this day, Dr. P. Bhanuprakash, In-charge, Department of Chemistry, PVKN GC(A), Chittoor addressed the students that “Nobel Prize Day is the day when the Nobel Prizes are awarded to individuals and organizations that have made outstanding contributions in the fields of Physics, Chemistry, Medicine, Literature, Peace, and Economic Sciences”. Dr. B. Ramachandra, Assistant Professor, Department of Chemistry, Government College for Men (Autonomous), Kadapa delivered an invited talk on “Nobel Prize Winners-2023 and their contributions” through Google Meet to the students. Later, a state-level crossword puzzle competition was conducted through online mode by the Department of Chemistry. The crossword puzzle competition was conducted on the theme “Nobel laureates and their contributions”. 235 students participated in the crossword puzzle competition. The participants who scored more than 50% of the total marks allotted for crossword puzzle competition were given certificates.

Aim & Objectives:

- To honour the work of Alfred Nobel and commemorate the anniversary of Alfred Nobel's death.
- To understand and appreciate the contribution of Nobel laureates to society.

Outcomes:

- 40 students participated in the invited talk on “Nobel Prize Winners-2023 and their contributions”.
- 235 students participated in the crossword puzzle competition and submitted the crossword puzzle through Google form.
- Students gained knowledge on the Nobel Prize Winners-2023 and their valuable contributions.

INVITED TALK
Dr. B. RAMACHANDRA
Lecturer in Chemistry,
GC for Men, Kadapa

The Nobel Prize Day is observed on December 10th of every year, commemorating the anniversary of Alfred Nobel's death. Alfred Nobel, a Swedish inventor, scientist, and philanthropist, established the Nobel Prizes in his will. The prizes are awarded in the fields of Physics, Chemistry, Medicine, Literature, Peace, and Economic Sciences. The Nobel Peace Prize ceremony is held in Oslo, Norway, while the ceremonies for the other categories are held in Stockholm, Sweden.

Solving crossword puzzles enhances problem solving skills and critical thinking among students.

**TOPIC: AWARENESS ON HEALTH AND HYGIENE TO VILLAGERS OF
GODUGUMURU, CHITTOOR**

Brief Report:

A healthy person is one who is mentally and physically fit. Hygiene refers to behaviors or habits that promote excellent health and a clean environment. Every day, we eat a variety of meals. Food is required by all living creatures.

Hygiene refers to behaviors that can improve cleanliness and lead to good health, such as frequent handwashing, facial cleanliness, and bathing with soap and water. Many diseases can be prevented through proper hygiene practices, such as covering your cough and sneezes, washing hands after handling animals, and showering before you swim.

Many children around the world live in conditions that make it difficult to maintain good hygiene. Where homes, schools and health centres have dirt floors; where water for handwashing is unavailable; and even where families share spaces with domestic animals; maintaining hygiene can be a challenge. What's more, practicing good hygiene is often perceived as a woman's responsibility, adding to her burden of care.

Programme outcomes:

Top 10 tips on how to get rid of mosquitoes in the house

- 1.Prevent Stagnant Water at Home
- 2.Check Door and Window Closures
- 3.Use Essential Oils
- 4.Place Mosquito-Repellent Indoor Plants
