**Understanding the Concept of Gender Equity by Dr.P.Neeraja, Assistant professor in Women Studies, Sri Padmavathi Mahila university, Tirupathi**

**Certificates distributed for the Students Participated in Kahoot Quiz On Famous Women Personalities**

### **3. DEPARTMENT OF BLENDED BSc., :**

**Department of blended B.Sc.,** Entrance examination conducted only in government junior colleges to know the course details and motivate towards to select the course through online admission in CCE portal .

The Entrance exam is based on the Syllabus of std. XI and XII and general knowledge and aptitude. Virtue of its underlying concept of blending, Blended B Sc is the very well planned blended syllabus to prepare the students conceptually for a multidisciplinary approach and understanding for higher education and research based degrees. It has appropriate overlap of Physics, Chemistry, Maths, Biology, Earth Science and Environment Science. The course aims to expose the student to the vast scope of basic sciences in the form of theoretical and experimental disciplines with applications. The objective is to emphasize the importance of basic science as the most essential disciplines for sustaining the existing industries and establishing new ones to create job opportunities at all levels of employment.

#### **4. DEPARTMENT OF SCIENCES : Star project proposal Submitted department of Sciences like Microbiology, Botany, Chemistry and Computer Science.**

#### **5. DEPARTMENT OF MICROBIOLOGY**

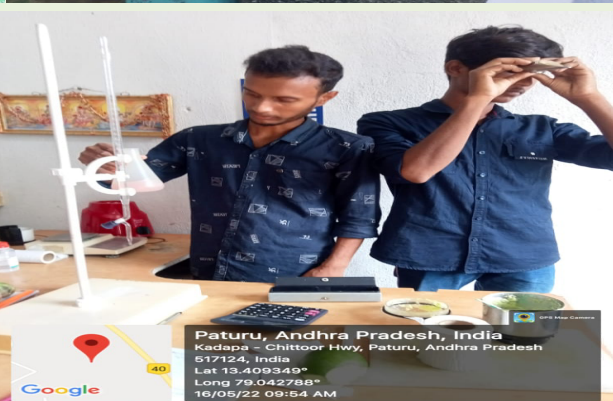

**STUDENTS SUMMER PROJECTS :** Department of Microbiology will conduct Hands on Summer Training Camp for Students to enhance the practical skills by doing different live projects with field trails. The practical nature of microbiology necessitates acquisition of significant knowledge and experience of laboratory skills of effectively support in their profession. In view of welfare of the students, professional development of faculty members, the following points are

- ❖ Laboratory activities are a vital component of college-level microbiology courses.
- ❖ Experiential learning cycle suggests student understanding of complex scientific topics
- ❖ Active participation in experimentation, to concrete experience, and finally reflective observation.
- ❖ Systematic alignment of topics is important and necessary to gain the knowledge in practical.
- ❖ Encourage the students for industrial internship through MOU of related industries and enhance the industry exposure to the student.

## 6. DEPT.OF BOTANY, B.VOC FOOD PROCESSING TECHNOLOGY - Industrial In-plant training

B.Voc Food Processing Technology, Semester I total 22 students were involved in industrial in-plant training for one month at various Mango Pulp Processing Industries. Industrial in-plant training provides a real time exposure to students, it helps to transform students theoretical knowledge to a practical approach.

The main objective of industrial training is to provide to students the feel of the actual working environment and to gain practical knowledge and skills, which in turn will motivate, develop and build their confidence.

## Examinations:

Semester End Examinations were being conducted from 18.04.2022 to 05.05.2022 for both UG and PG courses.
